

Windows 8/8.1/10 Setup for “TIFRH-WLAN”

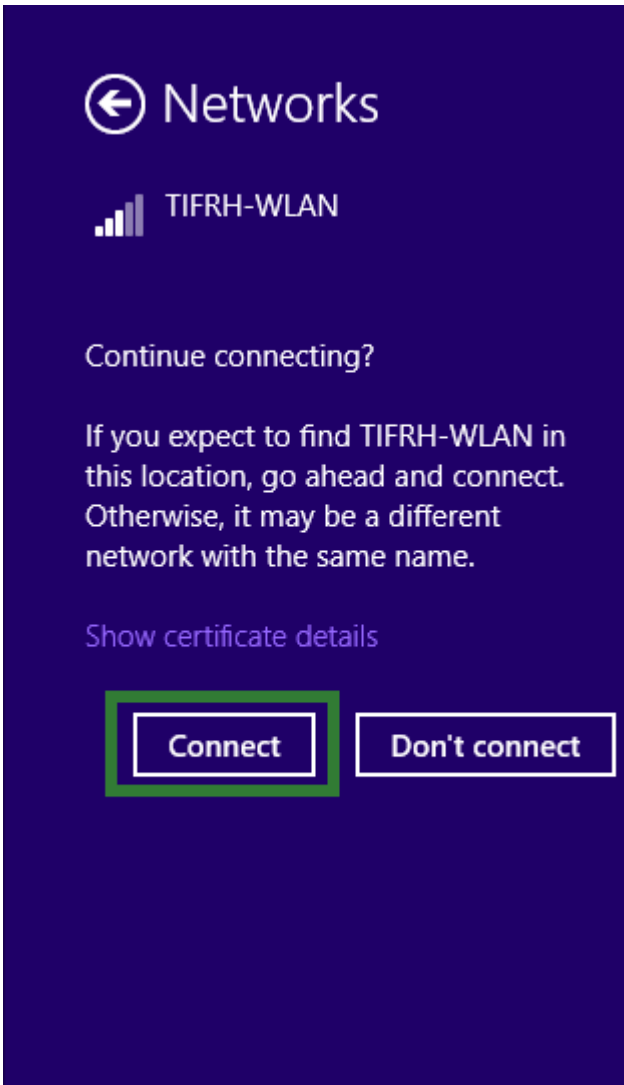

1. On Windows taskbar click on the Network icon.

2. The Networks Panel will appear on the right side of the screen.
Click the “TIFRH-WLAN” network.
Enter your username and your network password. And Click “**OK**”

A screenshot of the Windows 'Networks' settings panel. The panel has a dark blue background. At the top, there is a back arrow icon and the word 'Networks'. Below that, there is a signal strength icon and the text 'TIFRH-WLAN'. Underneath, it says 'Enter your user name and password'. There are two input fields: 'User name' and 'Password'. At the bottom, there are two buttons: 'OK' and 'Cancel'.

3. Click **Connect**.

4. You are now connected to “TIFRH-WLAN”.
