

Seminar

Two-dimensional turbulence in three-dimensional flows

Guido Boffetta

University of Torino and INFN, Italy

I will review the phenomenology of two-dimensional turbulence, placing particular emphasis on its distinctions from three-dimensional turbulence and elucidating how it manifests in real flows.

Friday, Mar 1st 2024

16:00 Hrs (Tea / Coffee 15:45 Hrs)

Seminar Hall, TIFR-H
