Latest Developments in Scientific Publishing Landscape

Paresh K Majhi

Elsevier, Munich

In the constantly evolving landscape of scientific publishing, staying ahead of the curve is not just a choice but has become a necessity for researchers. This talk will provide an overview about the latest developments in peer-review process, research integrity detection tools, finding the right journal, article transfer process in the face of rejection, responsible use of generative artificial intelligence (GenAI) in scientific writing and scholarly publishing as well as GenAI policy for authors, reviewers and editors.

Friday, Oct 4th 2024

16:00 Hrs (Tea / Coffee 15:45 Hrs)

Auditorium, TIFR-H
