Large Scale Ordered Assembly of Atomic Sheets

Tharangattu N. Narayanan

**CSIR-Central Electrochemical Research Institute
(CSIR-CECRI) Karaikudi**

Large scale ordered assembly of 2-dimensional (2D) atomic sheets is rather challenging due to the difficulties in engineering their interfaces. This talk has been devoted to address these challenges, and certain novel approaches towards their controlled and ordered assembly will be discussed during the talk. Such an ordered assembly leading to the formation of 3-dimensional foams and patterned complex structures are key focuses of talk.

Thursday, Mar 27th 2014

11:30 AM (Tea/Coffee at 11:15 AM)

Seminar Hall, TCIS
