Colloquium

Designing Online Course Content for Universal Access

Taliesin Smith

This presentation will introduce people to the "What?", "Why?" and "How?" of web content accessibility highlighting the particular relevance and importance to online education. I will discuss international standards such as the Web Content Accessibility Guidelines (WCAG 2.0), and techniques web developers use to meet them. Using real course examples and a screen reader, I will demonstrate some of my own team's successes and pitfalls in our journey to make our course content accessible to everyone.

Monday, July 14th 2014

4:00 PM (Tea/Coffee at 3:30 PM)

Seminar Hall, TCIS
